EDUCATION

Illinois Institute of Technology   **August 2024 - May 2026**
Master of Science in Computer Science, CGPA: 3.8/4.0   *Chicago, IL*
Coursework: Adv. Database, Adv. Operating Systems, Information Security

Vellore Institute of Technology   **July 2019 - June 2023**
Bachelor of Technology in Computer Science Engineering, CGPA: 8.56/10.0   *Chennai, India*
Coursework: Data Structures & Algorithms, Networks & Communication, Image Processing,
Microprocessors, Digital Logic

TECHNICAL SKILLS

Languages: JAVA, C, Go, Git, Bitbucket, JIRA
Framework/Libraries: Rust, ReactJS, NodeJS, ExpressJS, Bootstrap, Spring Boot
Web-Tech/Database: : HTML, CSS, MySQL, Firebase, MongoDB
Operating Systems: : Windows, Linux, Digital Ocean, VPC(Virtual Private Cloud)

EXPERIENCE

Software Engineer   **June 2023 - July 2024**
Cashfree Payments   *Bangalore, India*
- Collaborated with a team of 10, worked on **cross-platform application**, increased the customer interaction by **40% in 6 months**.
- Gained knowledge about **all products of PG**, brought up revenue hike for **AutoCollect service by 9.8% and Cashgram by 17.6%** through the mobile app.
- Accomplished **100%** automation using **Appium** and integrated **Browserstack** in Python.
- Devised and rendered the Risk Blacklisting and Whitelisting APIs, **product revenue contributed to 8% of the total** within months.

Software Engineer Intern   **September 2022 - May 2023**
Cashfree Payments   *Bangalore, India*
- Teamed up and developed **3 level of blacklisting APIs** expanding the scope of the team up to **25%**, performed perf-test on aggregation APIs.
- Engineered the SR APIs and wrote a script to automate testing, generated revenue accounting up to **15% of the total revenue earned** in 2 quarters.
- Deep dived into commonmerchantsvc, worked on Java version upgrades with **no downtime**.
- Worked on commonauth automation pipeline, automating over **500 testcases in a day**.

Kotlin Developer   **Sept 2021 - Oct 2021**
Protectt.ai Labs   *Remote*
- Deep dived into accessibility permissions and brought up the user interaction upto 46%.
- Improvised and improved the UI to reduce customer requests upto 60%.

RESEARCH PROJECTS

Image Shadow Removal Using Non Shadow Mapping   **January 2023 - June 2023**
MATLAB Software   *Link to the paper | Github*
- Objective was to extract a lot of sensitive information from images, further used as evidence or to infer some research result, which were hindered by shadows.

ACHIEVEMENTS

- Received an inter organization recognition at Cashfree Payments, **"The Gem Award"** for clear and balanced communication, ensuring the deliverables on time.
- Conferred the **Best Team Award for 4 consecutive quarters**, working under pressure (working with 3 teams simultaneously) and being communicative (working across 4 teams).
- **Over 36 Certifications** from Top Companies and Universities including Cisco, VMWare.
- FAC Coordinator and Secretary for TechnoVit and Vibrance fest, administered team of over forty-five individuals.
- Lead Campaigns in role of Campus Ambassador for universities for instance IIT-H, VIT & more.

CERTIFICATIONS

Microsoft Azure Certification - 200   **Sept 2021 - Dec 2021**
Machine Learning & Azure platform   *Link to the certification*
